SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Problem Solving
- Analytical Thinking
- Adaptability
- Attention to Detail

TECH SKILLS

CAD Software:

- SolidWorks
- AutoCAD
- CATIA V5

Mechanical Engineering:

- 3D Part Modeling
- Assembly Design
- Mechanical Design
- Product Development
- Prototype Design

PROFILE

Motivated Mechanical Engineering student with a strong foundation in CAD design, product development, and programming. Proficient in SolidWorks, AutoCAD, and CATIA V5, with hands-on experience designing mechanical systems and developing responsive web applications using HTML, CSS, JavaScript, and Firebase. Passionate about solving engineering challenges, creating innovative solutions, and continuously expanding technical expertise through practical projects. Seeking an internship where I can apply my engineering knowledge while contributing to real-world projects and professional growth.

EDUCATION

B.Tech Mechanical Engineering

2024 - 2028

Aditya University

CGPA: 9.57 / 10.0

ADVANCED LEVEL

2020 - 2022

Sakubva 1 High School

Points: 18 / 20

SELECTED ENGINEERING DESIGN PROJECTS

Pick and Place Robot

Software: SolidWorks

- Designed complete 3D assembly and moving mechanism.
- Produced detailed part models and engineering drawings.
- Applied mechanical design principles for automated material handling.

Jeep Model Car

Software: SolidWorks

- Developed 3D vehicle model including chassis and body structure.
- Created mechanical assemblies and design documentation.

Drone

Software: SolidWorks

- Designed drone frame and component layout.
- Optimized structure for lightweight construction.

Bending Roller Machine

Software: SolidWorks

- Developed 3D vehicle model including chassis and body structure.
- Created mechanical assemblies and design documentation.

Tractor

Software: SolidWorks

- Designed chassis, transmission layout, and major mechanical components.
- Created engineering assemblies and detailed part models.

Programming:

- HTML5
- CSS3
- JavaScript
- Python

Web Development:

- Responsive Web Design
- Firebase Authentication
- Cloud Firestore
- Firebase Hosting
- Git & GitHub
- EmailJS

LANGUAGES

- English (Fluent)
- Japanese (Basic)

CERTIFICATIONS

- **SOLIDWORKS 3D CAD for Education**
- **Machine Design Part I**
- **Product Development using AutoCAD**
- **Introduction to CATIA V5**
- **Digital Manufacturing**
- **Rapid Prototyping Using 3D Printing**
- **Innovate with ANSYS Simulation Tools**
- **Managing Major Engineering Projects**
- **AI for Mechanical Engineers**
- **Health, Safety, and Environmental (HSE) Engineering**

ACHIEVEMENTS

Awarded a Certificate of Academic Excellence for attaining the top rank in the Mechanical Engineering department with a 9.9/10 GPA in the third semester.

Go-Kart

Software: SolidWorks

- Designed chassis, steering, and structural frame.
- Developed complete 3D assembly.
- Considered stability and manufacturability.

Wheel Loader

Software: SolidWorks

- Modeled loader frame, bucket, linkage, and chassis.
- Created detailed mechanical assemblies.
- Applied machine design concepts.

Crusher Machine

Software: SolidWorks

- Designed crushing mechanism and supporting structure.
- Developed complete component assembly.

Piano

Software: SolidWorks

- Created a detailed CAD model emphasizing dimensional accuracy and assembly relationships.

Engineering Portfolio Website

Technologies: HTML, CSS, JavaScript, Firebase, GitHub

- Developing a responsive engineering portfolio website to showcase mechanical design projects and technical achievements.
- Implementing modern web technologies to present CAD models, project documentation, and engineering skills.
- Utilizing Firebase for backend services and GitHub for version control and deployment.

EXPERIENCE

International Student Representative

Aditya University – Boys Hostel | Peddapuram, Andhra Pradesh, India
Nov 2024 – Present

- Represent and advocate for the needs of international students by collaborating with university housing administration.
- Resolve accommodation, welfare, and facility-related concerns to improve the student living experience.
- Foster an inclusive and supportive residential environment for students from diverse cultural backgrounds.
- Coordinate student onboarding, communicate important safety and operational updates, and assist in conflict resolution.

Youth Project Manager

Guta Ra Jehovha | Mutare, Zimbabwe
Aug 2022 – Oct 2024

- Led a multidisciplinary youth team in planning and executing community development projects.
- Managed the implementation of a solar-powered irrigation system to improve water access and support sustainable agriculture.
- Supervised the operation of a community vegetable garden and broiler poultry project, contributing to local food production and revenue generation.
- Coordinated project resources, delegated responsibilities, monitored progress, and reported outcomes to senior organizational leadership.
